

REMARKS

Reconsideration and allowance are respectfully requested.

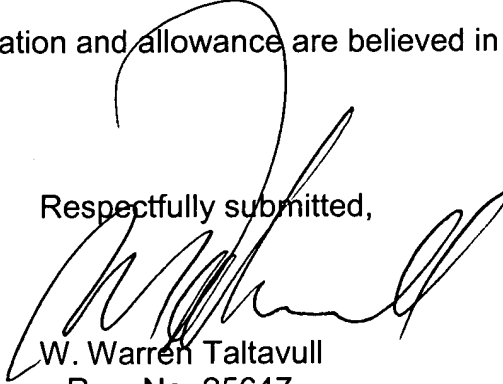

Applicant is grateful for the interview with Examiner Nathaniel E. WIEHE, wherein it was concluded that claim 1 with the addition of the language that the deflector extends from one side across said coolant gallery in order to engage the other side, clearly differentiates the present invention from the reference cited, namely KILDEA.

KILDEA does not disclose or even illustrate the flow deflector, or ribs, extending across the coolant gallery to engage the other side of said gallery as expressly claimed in currently amended claim 1.

Entry of this amendment is solicited and is believed appropriate and is believed to distinguish the invention from the cited references.

For the foregoing reasons, reconsideration and allowance are believed in order and are solicited.

Respectfully submitted,

W. Warren Taltavull
